

Add the Shapes

Add the shapes and write the correct number on the line.

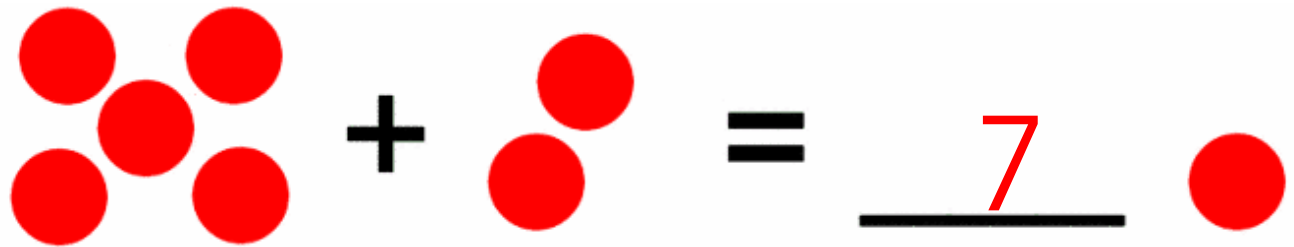

Add the Shapes

Add the shapes and write the correct number on the line.

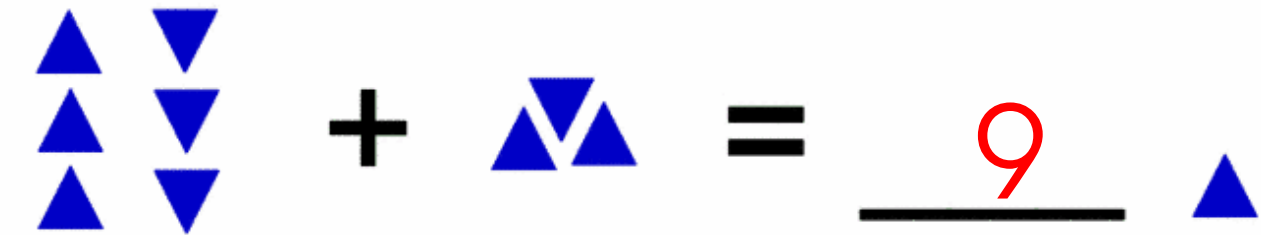

A visual addition problem. On the left, there are 5 purple diamonds. In the middle, there is a plus sign. On the right, there are 3 purple diamonds. This is followed by an equals sign, a horizontal line with the number 8 written in red above it, and a single purple diamond to the right.

$$5 + 3 = \underline{8}$$

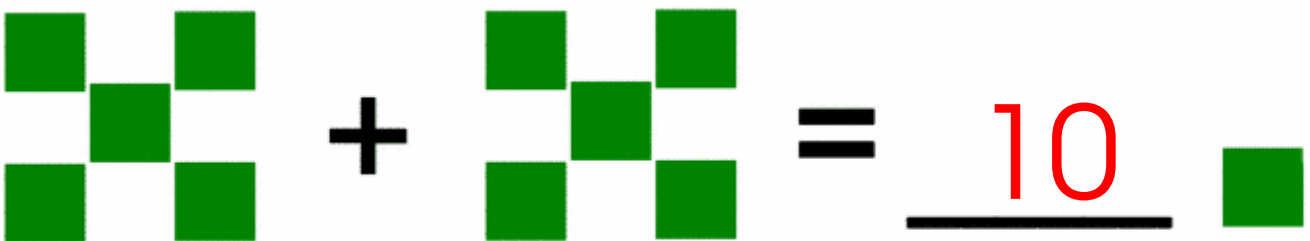

A visual addition problem. On the left, there are 5 red circles. In the middle, there is a plus sign. On the right, there are 2 red circles. This is followed by an equals sign, a horizontal line with the number 7 written in red above it, and a single red circle to the right.

$$5 + 2 = \underline{7}$$

A visual addition problem. On the left, there are 6 blue triangles (3 pointing up and 3 pointing down). In the middle, there is a plus sign. On the right, there are 3 blue triangles (1 pointing up and 2 pointing down). This is followed by an equals sign, a horizontal line with the number 9 written in red above it, and a single blue triangle pointing up to the right.

$$6 + 3 = \underline{9}$$

A visual addition problem. On the left, there are 5 green squares. In the middle, there is a plus sign. On the right, there are 5 green squares. This is followed by an equals sign, a horizontal line with the number 10 written in red above it, and a single green square to the right.

$$5 + 5 = \underline{10}$$
